DISCOVERDANCE EARLY CHILDHOOD DANCE EDUCATION **NEW**

The DiscoverDance Early Childhood Program is a series of movement classes designed to introduce children to the creative and expressive world of dance. Each program offers children the opportunity to develop their natural movement ability in a multi-sensory environment. Music, movement, visuals, and props will enhance your students' love of the art form and the unique conceptual approach to dance education will provide the opportunity for cognitive growth. The summer DiscoverDance program gives you a taste of 4 classes of what the 12 week fall and spring sessions will be like. (See additional flier or website for more information on each class!)

BEYOND THE BARRE CONDITIONING

It is absolutely imperative that dancers are strong, physically fit, and able to endure the rigors of dance performance. A conditioning regime allows dancers the opportunity to strengthen their bodies to complement their technical and stylistic dance training and prevent injuries. This camp will focus on strengthening the whole body through multiple exercise techniques including barre, floor & circuit training. Sign up for one or both weeks! This class is created for students entering the 5th grade next fall and older students
