BEYOND THE BARRE CONDITIONING

It is absolutely imperative that dancers are strong, physically fit, and able to endure the rigors of dance performance. A conditioning regime allows dancers the opportunity to strengthen their bodies to complement their technical and stylistic dance training and prevent injuries. This camp will focus on strengthening the whole body through multiple exercise techniques including barre, floor & circuit training. Sign up for one or both weeks! This class is created for students entering the 5th grade next fall and older students.
